Hunsur Drainage Scheme - Town Municipality

Refering to your Memo No 776 dated 25-2-47 and subsequent reminder letter no. 855 dated 31-3-47 requesting to return the above scheme duly countersigned as reminders are being received from the Chief Engineer, I have the honour to forward herewith, the copy of the Scheme together with the plans received from the President with his report No. H.C 35/46-47 dated 5th April 1947 duly countersigned for the full amount of Rs.77,300/- copy of Resolution dated 26-2-47, accepting the scheme is also enclosed

The resolution refers only to the acceptance of the scheme but does not make mention of the fact of meeting the cost. From a report, dated 12-4-46 received, however earlier, (copy is enclosed) referring to the original scheme it can be seen that while the council expect Government to meet as usual half the cost of the scheme, they want the other half being their quota to be treated as a loan repayable in 15 equal instalments in view of the meagre resources of the Municipality and other improvements to be effected by the Municipality at heavy cost

A fresh resolution would however be necessary embodying these points in view of the scheme having been revised involving increased cost and I have asked the President to send it up early In the meanwhile, I request you to get the scheme approved by Government, so that the work can be taken up this very year, in view of the immediate necessity for doing so. The proposal of the drainage scheme for the town has already been

recommended

recommended for sanction by my predecessor to the Government in this office letter No. D3-C.826/43-44 dated 22nd April 1946.

Hunsur Drainage Scheme

In continuation of this office letter No D3.C.1759 of 46-47, dated the 14th April, 1947, forwarding a copy of the Drainage Scheme, together with plan received from the President, I have the honour to forward herewith, a copy of the fresh resolution passed by the Council on 25th August, 1947, as instructed by me in para 2 of the above said letter. In the resolution, it is stated that Government may be pleased to grant half the cost (Rs.38,050/-), of the scheme out of their Town Improvement Grant and Rs 30,000/- of the other half as a loan to the Municipality repayable in 10 instalments, that the Municipality may be permitted to lay Rs.8,050/- in addition to Rs.4,800/- which has already been paid but for which no work has yet been done, out of the existing balance of the current year and that Government be requested to start the work immediately

Each instalment repayable in 10 instalments would amount to Rs.2,000/- per year and the Municipality is confident of repaying this annually out of its nominal Revenue.

I request in the circumstances, that further action may kindly be taken to get the Scheme approved and to start the work without unnecessary delay as the matter is

as the matter is long pending.

---

ORDER No. L.1196-87 mh 45-47-46

Dated, Bangalore, the 5 ~~July~~ Aug 1948

The Director of Public Health submitted two estimates in April 1938 - one for Rs 42,050 for a comprehensive drainage scheme and another for Rs 4,430/- for the construction of the first stage of drains - in Hunsur Town The comprehensive scheme was ordered to be deferred but the estimate amounting to Rs 4,500/- for the first stage of the scheme was sanctioned, the expenditure being met by the Government and the Municipal Council in equal proportions The Government contribution of Rs 2,250/- was met from out of the Town Improvement Grants for the year 1939-40, an equal amount having been ~~being~~ paid out of the Municipal Funds before the close of the year 1938-39

The Deputy Commissioner, Mysore District, in his letter dated the 2nd May 1946, reported that the first stage of the work was completed before the close of the year 1940-41 and he requested that the second stage of the scheme estimated to cost Rs 66,600/- may be taken up

As this estimate was based on the rates in force in the year 1937 and was unworkable, the Deputy Commissioner has in consultation with th

th[illegible]nsur Town Municipal Council, forwarded for sanction a fresh estimate for Rs 76,700/- duly scrutinised by the Chief Engineer for Roads and Buildings The expenditure in this behalf is proposed to be met by the Government and the Hunsur Town Municipal Council in equal proportions. As the finances of the Municipality do not admit of such a heavy expenditure immediately, the Municipal Council have also requested the Government for the grant of a loan of Rs 29,700/- repayable in 15 instalments, their share of the cost amounting to Rs 38,350/- being financed as noted in the margin

	Rs
1) Loan to be given to the Mlty repayable in 15 instalments.	29,700
2) Amount already paid but for which no work has yet been done	4,800
3) Amount which will be met from out of the closing balance of the Mlty. for the year 1947-48	3,850
Total	38,350

-

Government consider that, in the interests of the improvement of sanitation of Hunsur Town which is a Malnad area, it is essential to sanction the drainage scheme in question They are accordingly pleased to sanction (1) the estimate for Rs 76,700/- for the said work, (2) the payment of Rs 38,350/- as a grant by Government from the allotment made under the T.I. Grants for the year 1948-49 and (3) the grant of a loan of Rs 29,700/- to the Municipality carrying interest at 4% and repayable in 15 annual instalments.

The Deputy Commissioner, Mysore District and the Chief Engineer for Roads and Buildings are requested to take all necessary further action in the matter, in consultation with the President of the Hunsur Town Municipal Council
